This report describes changes to the Fund that occurred during the reporting period.

WHAT WERE THE FUND COSTS FOR THE PAST YEAR? (based on a hypothetical $10,000 investment)

Fund Name	Costs of a $10,000 investment	Costs paid as a percentage of a $10,000 investment
F/m Compoundr High Yield Bond ETF	$27	0.27%

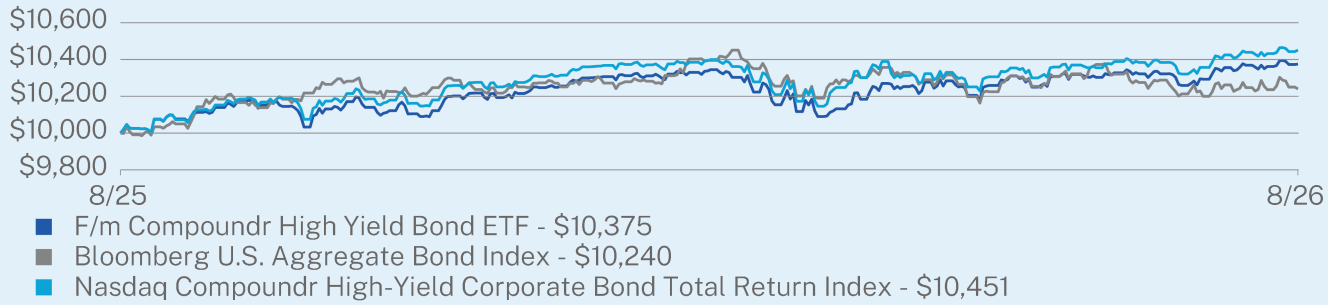

HOW DID THE FUND PERFORM LAST YEAR AND WHAT AFFECTED ITS PERFORMANCE?

The Fund seeks investment results that correspond (before fees and expenses) generally to the price and yield performance of the Nasdaq Compoundr High Yield Corporate Bond Index (the "Index"). The Index is designed to reflect the total return of the U.S. High Yield Bond market. The Fund tracks the Index while seeking to minimize or eliminate distributions. For the trailing twelve-month (TTM) period ended August 31, 2026, the Fund returned 2.96% based on NAV and generated a cumulative return of 3.75% since its inception on August 11, 2025. For the fiscal year, interest rates rose with the yield to maturity of the 5-Year US Treasury rising from 3.72% to 4.50% in the period. This created a drag on our performance (prices fall as yields rise), but the income of the fund and stable credit spreads helped offset this headwind.

HOW DID THE FUND PERFORM SINCE INCEPTION?*

The $10,000 chart reflects a hypothetical $10,000 investment in the Fund. The chart uses total return NAV performance and assumes reinvestment of dividends and capital gains. Fund expenses, including management fees and other expenses, were deducted.
